

Finding Home: Marcus's Story

Marcus and his son have been anxiously awaiting the moment when they can move into their new affordable home. Currently, they are renting an apartment where they are continually exposed to second-hand smoke, mold and unpredictable rising rent. Marcus has been renting for many years, which has led to a lack of stability in his life as he has not been able to save adequately for emergencies and future medical needs. Now as the future homeowner of 613 Lemmon Avenue, the site of our current Faith Build, Marcus is on the verge of fulfilling one of his biggest dreams, and he couldn't be more excited.

"I want a home for stability in my son's life, as well as my own....I want my son to know that he has a place to come home to." - Marcus

Your Gifts In Action

Marcus and his son have been renting for many years, which has led to a lack of stability for their family. Now, thanks to donations like yours, they will have a place to call home.

Home Repair: Bev's Story

Bev has lived in her current home for many years, but it had fallen into disrepair. She wasn't able to complete the repairs on her own. Since partnering with Black Hills Area Habitat for Humanity, Bev has developed a relationship with the construction team. She looks forward to volunteering with Habitat in the future and is so thankful for the work that has been completed on her home. To learn more about Bev, and other families, go to www.blackhillshabitat.org/our-partner-families.

"My house feels like a home again. Every time I get up or come in from work, I feel like I'm home." -Bev
